

WHO IS OTC?

We protect Purdue University Intellectual Property (IP) and leads the technology transfer activities for Purdue innovations with a goal to help society live healthier, happier, longer lives.

HOW DOES THE OFFICE OF TECHNOLOGY COMMERCIALIZATION TURN YOUR IDEAS INTO REALITY?

Purdue owns IP that arises in the course of employment or enrollment at the University, or in the course of a work-for-hire relationship or visiting scholar relationship with the University with certain exceptions noted in the Purdue IP Policy (I.A.1). Purdue Research Foundation (PRF) owns and manages the Purdue IP for the benefit of the University. The revenue PRF receives from licenses Purdue IP is shared with the inventors, the inventor's department, and PRF.

We encourage you, as an innovator at Purdue, to disclose your technology to OTC via the career account-protected link:
prf.org/otc/disclosure/form-types.html

WHEN SHOULD I DISCLOSE?

To provide ample time for OTC's staff to review your disclosure and, if appropriate, to file a patent application, please disclose 15 days or more before a planned publication such as a conference presentation or publication on a journal's website. The act of licensing your technology to a company does not interfere with your right to continue your research.

HOW DOES OTC SERVE YOU?

01

IDEA TO IMPACT

You pursue research and make a discovery. We help you get it into the real world. All you need to do is develop a new technology and disclose it to OTC.

IP PROTECTION

02

OTC has a team of Patent Attorneys that will conduct an IP analysis of your invention disclosure and then file for IP protection. All IP disclosed to OTC is kept confidential until the IP is protected.

FORGE THE FUTURE

By working with OTC, your discoveries get to market and impact the world.

03

MARKET TECHNOLOGIES

Our business development and marketing team will conduct market analysis and gain exposure to your technology through showcases, press releases, networking opportunities, and marketing publications.

INDUSTRY LIASON

04

We build partnerships with industry leaders and help get your inventions into their hands via licensing and ongoing research relationships.

05

NEW VENTURE CONNECTIONS

We connect entrepreneurs & start-up companies with your new technologies.

DISTRIBUTION OF LICENSE INCOME
